Report of The School Board.

Once more the time has come when we are called upon to make our annual report of the condition of our schools for the past year. We trust the report will be satisfactory, without making a detailed statement of each school or teacher. We are of the opinion that as a whole, good progress was made throughout the town.

Improvement in studies follows, as a matter of course, when parents, teachers and scholars are all interested in making the school a success.

We wish to call your attention to a very important fact, and that is, of regular attendance. It is very difficult for scholars to make great improvement if they are conspicuous by their absence from the school a large part of the time. Of course you are aware of the fact that in the country towns the school privileges are limited, and "Punctuality is a prime virtue anywhere" and is very essential to the success of our schools. The free text-book law, although a help in many cases, is an injury in others, as it leads to carelessness on the part of many scholars.

When the parents furnished the books, the children, as a rule were careful of them. Now that the town furnishes them, the scholars, and in many cases the parents, have no special interest in them.

We would still recommend, as in the past two years, that the school buildings be repaired and that a sum of money be raised therefor.
